It's 6 a.m., Mainstreet Cafe's open now
Hit the tower, rocked out, walked the streets
Till we could walk no more, sat outside the school
Talked our problems down to size, that time just flew
by

These are the days I can't forget, I won't forget
Foolish crimes and long walks
Memories built in this small town
These are the best days of our lives

It's Friday night, Black Beauty takes us for a ride
Papers Fly, we'll beat the record this time
We danced all night trying to avoid a fight
That time just flew by

These are the days I can't forget, I won't forget
Foolish crimes and long walks
Memories built in this small town
These are the best days of our lives

These are the days I can't forget, I won't forget
Foolish crimes and long walks
Memories built in this small town
These are the best days of our lives
