What can I say to make it right
Or should I just give up the fight
-Just hold on it's getting better
-Just hold on we'll make it better
It tears me up to see you cry
I won't give up i'll always try
-Just hold on it's getting better
-Just hold on we'll make it better
I dig down oh so deep
Your love is what I seek
I'm not getting off
Not getting off
I'm sticking this one out
I'm not getting off
Not getting off
I'm sticking this one out
You're filling up, you're dragging down
You're throwing emotions all around
-Just hold on it's getting better
-Just hold on we'll make it better
Remember standing hand in hand,
You became my wife and I your man?
-Just hold on it's getting better
-Just hold on we'll make it better
I dig down oh so deep
Your love is what I seek
