You've broke my heart, so many times  
But no more times will i allow this to go on  
This is your mistake, this is your loss  
You'll want me back, but you can't have me  
You had your chance  
I won't let this get me down  
You're just a girl - there's problems bigger in this world  
I won't let you get me down  
You're just a girl  
I can't believe you took me and all of this for granted  
And now that it's gone can't you see how much  
You were wrong  
This is your mistake, this is your loss  
You'll want me back, but you can't have me  
You had your chance
