She said "a long time"  
Any more, would be unfair  
So we wait, a long line  
Waiting for the "OK"  
And the peace keeps falling down  
And it will show, show

How many times that you don't really show  
I don't know, I don't know  
I'm coming up and you gotta show

Show, your, skin

And the beat goes on, lets it get away  
And the beat goes on now baby get out  
And the beat goes on, lets it get away  
And the beat goes on now baby get out

We will show, where we stay  
Where we go, where we play  
Do you show?  
And the peace keeps falling down  
And it will show, show

How many times that you don't really show  
I don't know, I don't know  
I'm coming up and you gotta show

Show, your, skin

She said that you won't last  
I don't know, I don't know  
How many times that you don't really show  
I don't know, I don't know  
I'm coming up and you gotta show

Show, Your, Skin
