Let go, our time, holding onto you so scared
I know, you'll find, ways to make me care

Looking pretty, looking pretty, looking pretty,
Hanging out there girl I know what your thinking of
Your so silly, your so silly, your so silly
Hanging out there girl, I know what your dreaming of

She's thinking bout who goes, you go, I know it's you
damn well
She's thinking bout who goes, you go, I know it's you
damn well
She's thinking but I won't show, won't show, I know it's
you

Looking pretty, looking pretty, looking pretty,
Hanging out there girl I know what your thinking of
Your so silly, your so silly, your so silly
Hanging out there girl, I know what your dreaming of

She's thinking bout who goes, you go, I know it's you
damn well
She's thinking bout who goes, you go, I know it's you
damn well
She's thinking but I won't show, won't show, I know it's
you
