You know, I really like your music
But don't you think you guys are really harsh on the
kufars?

We're not harsh on the kufars
The kufars are harsh on us

The poison is injected
The giant is asleep
He's chain into sections
To keep him off his feet
The mission is forgotten
The bond is getting weak
Wake up oh Muslim Ummah
Before we face the heat

Telling me to calm down
A year has past
since the last song
Situation has worsen
It was kosovo and Kashmir
Now it's chechnia and dagistan
So who is next in line
Governments who claim
They implementing Islam
Like who??!
Like Taliban, Iran and Sudan..
All 52
So called Muslim nations
Oppressing the masses
in the name of Islam
They are digging our graves
while we are a sleep
over a billion
But oh so weak
We need to rise up
And get back on our feet
We've been fooled too long
This what happens
When we let kafirs lead

Why are we losing?
Who are we amusing?
Sisters are leaving
because brothers are abusing
Twisting Islam's teachings
mixing culture and pride
using Islam to justify
for the tears that she cries
When I look into her eyes
I see the pain deep inside
As she leaves and says good bye
Now tell me who's to blame
Don't just sit there in shame
Lets look to Islam to cure the pain
to all my sisters in pain
These oppressors are insane
They're heading straight
to the hell fires flame

The poison is injected
The giant is asleep
He's chain into sections
To keep him off his feet
The mission is forgotten
The bond is getting weak
Wake up oh Muslim Ummah
Before we face the heat

Imitating the kafirs
Flirting with disaster
Even our sheiks and Imams
Are dressed up like priests and pastors
Khatibs wearing long robes
Historical clothes
More puppets than puppet show
Leaving us with no solution
after their speech
Dawah based on prestige
Watch as they leach off
the Muslim Community
What ever happened to
this Ummah's unity
NOTHING!
Exactly
They're laughing!
Because they are acting
They cut the tongues
Of those who speak the truth
Fearing that the message
Will be passed on to the youth
You say its hard to believe

Before you nod your head
THINK!
If our Scholars spoke the truth
Why would our enemies
Give them the platform to speak

The giant is in a slumber
Islam is complete
yet the Ummah looks up
to democracy for its needs
Defeated mentality
Left us in a gutter
The giant used to
Take care of the world
Now asks the kafirs to usher
Remember the battle of Bader
They doubted us from the start
Muslims had Islam
In their minds and their hearts
They know they fear us
Injecting poisons venom
so they tear us a part
This is just a reminder
Take it straight to the heart
Let us get back in the lead
Shake the giant to wake
Flourish and rejuvenate
Implement only Islam
to revive and renovate

The poison is injected
The giant is asleep
He's chain into sections
To keep him off his feet
The mission is forgotten
The bond is getting weak
Wake up oh Muslim Ummah
Before we face the heat

Brothers killing brothers
While the kafirs getting richer
Muslim blood on my fingers
Tell me what's wrong with this picture
These organizations
Making no difference
They're making dollars no sense
In their lack of assistance
Muslims enlisted
in the enemy's cavalry
Firing at our own people
Muslims to Muslim fatality

On the battle scene
Surrounded by our own casualties
Under siege
By these corrupted regimes
Blood to our knees
While the great giant sleeps

Whose law are you following?
Which side are you on?
Our brothers shed blood
For the cause of the kufar
They show us "Three Kings"
When we saw them stealing
They play as heroes
When we know they are zeros
Playing with our minds
Trying to use us as a pawn
THIS IS OUR SITUATION
NOT JUST A SAD SONG
Let us rise the Ummah
And follow the Sunnah
to Bring Back Islam
Implement the Quran
Awake this sleeping giant
That's stronger than a lion
to chain up the Shaitan
Victory is promised
So work for Islam
and keep your Deen strong
We've waited too long
From here to Mecca

ALL TOGETHER NOW!

Let us rise The Ummah!
Let us Rise The Ummah!
Let us Rise The Ummah!

The poison is injected
The giant is asleep
He's chain into sections
To keep him off his feet
The mission is forgotten
The bond is getting weak
Wake up oh Muslim Ummah
Before we face the heat
