[Bronze Nazareth] Gladys Knight pipes, lady day sun  
dress Lays her hair where most niggas guns rest She's  
craziest but the bitch never made me rich Told me  
always on the day sun rest But the hours always move  
like a nurses' shoes And if my product doesn't move  
then you will assume So I might as well hustle 'til my  
greens and bustles double And I can't walk the street's  
so subtle Raise your heat if your kids didn't eat While  
employment, rock M1 and had steak for beef You do  
sixteen bars or maybe less And carry as many sacks as  
you could stick in his chest 'Cause I be outside sitting at  
my desk 'Cause you push dope, I'm just tryna push  
'Cassettes' If she push sex, I'm just tryna push a lex  
They embezzle, I'm just tryna settle my debts
