[Bronze Nazareth] One Day about 9am I woke up By the sound of gunshots of some kid who got stuck Screaming wild, so I slowly get up pull back my blind And I ain't see shit except a note that was signed So I reached out and got the note and all the shit said is, "we took HipHop and he's almost dead" Pack up my lyrics and beats to Kill Bill And head towards a thousand high hats upon the hill My map says. "Follow weak lyrics and simple beats" They brainwashed the streets just to ride and not think I can see the suspects 'cause they always flashing ones Plus I heard Stagger Lee saying he was from the slums With some bleached poco jeans on And tied up in the chair was HipHop with white tees on I quickly called 4th Disciple Told him, "HipHop is dying, meet me with your iron rifle" And tell Razah bring some Brimstone Meet me in Ohio with a thousand tonnes of gemstones Bring all your jewels and tools, we need professionals Ringz lined up a tour to hit the decibels I last saw HipHop in St Louis Singing with Christina in a club with Lunatics We stormed the club and didn't find HipHop So we grabbed Nick Cannon and beat his fucking ass up And asked him where was HipHop, he couldn't tell And said he though he saw him last week on TRL He said they give it up if a classic album was made So we hit for his lab later that day And when we arrived HipHop was still alive But he needed respiration in order to survive So we gave it our breath and you decide
