Boy, I've been watching your move  
You've been lying to me from the start  
Boy, you've been treating me bad  
I can take it, take it no more  
You caused this broken heart.  
Now I make another start  
Breaking out, gonna be free from your love

Breakout, gotta break out  
I gotta run away, get away from your love  
Breakout, gotta break out. I gotta run away, get away

Boy you've been cheating on me  
You've been fooling around at night  
You're crazy if you think I'm a fool  
I'm gonna get you out of my life  
You caused this broken heart.  
Now I make another start  
Breaking out, gonna be free from your love
