[Intro: Byata (Bronze Nazareth)]

Yeah, Byata, what's good?

Hah... let 'em know, yeah

(What's up with the future though, you know what I mean?)

Uh-huh (one plan, and divine man, spirituality

You know what I mean?) Uh (I got my head on right, you know?)

[Chorus: Bronze Nazareth, Byata]

One hook, one kiss, one feel, one love

Two hearts, two souls, two roads, two of us

One plan... one plan...

[Bronze Nazareth]

Yo, let's toast, dubbed behind the walls of my mind

Let's elope out them pose of written roads with these lines

I know you sit by the phone, hope your finger, hold the ring

Even when the throne don't shine, you always a queen

Your walls bleed, my sound, rain cascade down

She ride, I hold it open, see, we "Love Spell" bound

I'm from Gun Rule, where flowers don't grow, only the trees

I mold the globe like holy bowls of pottery

Honor me, five fifths, a man, dealt a different hand

With specific plans, to own my own strips of land

Your eyes glow like the cosmos, she responded

Smile like the winds of Egypt, notice the sweet lips

Love your brown shade, can I write you a serenade

Walk in purple rain, and talk amongst the flood plains

My campaign remains to over flow your chains

In the way beams of light, I plan to die

Deep slide, and swim laps in your sinapse

Pin back your legs til your walls collapse, I slide through

[Byata]

There ain't nothing I wouldn't do for you

I know you would die for you, so I would die for you

See I would give this all up, if you would ask me too

Relax my mind, knowing that you got me, boo
You my king, I'm your queen, you my sun, I'm your
earth
Words can't even express how much I love this worth
Disperse flows to express my, heavenly bliss
I feel blessed to possess a true love like this

[Bronze Nazareth]

Yo, she cool though, she know I wear a hoody to her
funeral
Blow a few at 'you-know-who', we travel like the news
How's paradise, share this life, Jamaican fahrenheit
As a man, I stand right to the course of the sun
Only happiness in life, is to love and be loved
One morning we can pause on the balcony warm
weather
Alone in the world, and watch our future together
Your eyes be as wide as the heavens, I travel through
you
Stand in timeless moments, go potent from the voodoo
Fires tremble, she crash just like the cymbal
I might just ask you, to buy a Wu tattoo
Let the clouds blanket you in my kingdom
Hold a delayed pen, when the jealous man's itching
It's tension, when it's pressure applied
Nobody fix your apron, ass shaking when you ride

[Byata]

You ain't gotta think twice, you my prize for life
I thank the highest for this gift, every morning I rise
Look into your eyes, I can see eternity, you turning me
On, with your sweet words, so I dedicate this verse
To you, cuz this is what you deserve
Nothing less, with the best, I give you all of me
You sexy, whenever we be naked, L-O-V-E
Baby, you got me going crazy
And you know I love it when you call me your lady
