[Chorus: Bronze Nazareth] Left, left, left, right, left
Left, left, left, right, left About face! [June Megalodon]
Guns that rain, flooded pain levels the playing field
Death wish streaks, shoot the gift, man a ill creature
Spill feature, captivates them, parapelegic MC's And
my D's, I bleed three, five seven bleed Hell make
heaven, seven angels, one devil and a mind that meets
Silver Surfer, know preceeding MC My food for thought,
is now my Thought for Food Levitate and aurora, more
box than our Pandora Dodge women, deathly women'll
get 'em White flags and scrolls of two bones, invade
homes Slay domes, is the pictures I paint Death
march'll get you, point blank [Chorus] [Bronze
Nazareth] Yeah, sawed off, fall off the Empire State
Dogs get called off, nigga, a barbered wire face Hard
war chase, for crowns on the cape Bow down,
merchant of fate, words serving face Get burnt in
Exxon lakes, walk the plank, over fresh earthquakes If
he escape to the other side Still seen it, last birthday, I
eliminate There is no debate, it's true men, a politic
Atomic detonate, Rambo an MC, compound and
regulate Armored tank, think tank, blue steel bayonette
Wink on the kitchen sink, I expose weak link Then a
boat cut it Ya'll niggas boat like Zeus from Bronze
coming Bitches sell they jewels just to walk on the
carpet I gamble on a rose of a dime before your fork it
Leave shambles in bones in the darkest tarpit Zodiac
killer, body in cement pillar Iller than bubonic, clean
forensic from car pit Mark grave after they die, then we
torch it Spit musical funeral, MC's forfeit March of the
state of the heaven, the four lost it [Chorus] [Kevlaar 7]
The jail still claims, I let a nigga out his cage Gauge
stuck in his rib, tried to fuck with our fame Insane
methods, device grip was destined You sacrificial
lambs pipe wood when tested The staircase to death,
lead you to hell's wind The ship's careful, tiger shark
infested Walk the glass trail, say nothing else Ya'll MC's
are failed to add on to our wealth Walk the plank and
plunge inside the sun belt Melt brainwaves in the cage,
you burn We discovered the fire, now the see is your
earned In the belly of the beast, the better bridge is

equator I twist your halo, you pain is my feast Waves of
cut confidence, it's danger and dominance Accept the
dead heart and admit defeat [Chorus]
