"Carry Me"

Creator of the universe
The beginning and the end
King of kings and Lord of lords
And yet my closest friend
So, what have I to fear?
The Author of eternity
Is standing with me here

High above this mountain
Across this raging sea
Only Your love will carry me
Through the deepest valley
Where I just can't see
Only Your love will carry me

The hand that holds my destiny
Is here to hold me now
The Maker of all that I see
At Your feet I bow
You've opened up my eyes
Now I see that all I need
Is standing by my side
