The city seems to be calling out my name
I've only seen the pictures but I've been there all the
same

I can see but I can't see
I can hear but I can't hear

The sound of children laughing down the hall
But you live in the darkness
Where there's nobody at all

That you can see but you can't see
You can hear but you can't hear
But we can learn
How to love

The more I see the more I realize
That nothing's quite that simple
You can't always trust your eyes

Cause I can see but I can't see
I can hear but I can't hear
But we can learn
How to love

From here to the horizon to the stars
I'll be with you no matter where you are
I'll be watching over, watching over you

I can see but I can't see
I can hear but I can't hear
But we can learn
How to love

Cause I can see but I can't see
I can hear but I can't hear
But we can learn
How to love
