"When I Let It Go"

Visit "[When I Let It Go](#)" on MotoLyrics.com

This time I've got to trust You
I've got to accept Your plan
I have tried to guide my circumstance
But there's just no way I can
When will I learn this lesson
Your ways are not like mine
Lord, help me to surrender
The control I try to have on my life
When I let it go
You take my hand and gently lead me
Then You let me know
Just how peaceful my life can be
When I let it go
Your never-ending blessings
Like a river start to flow
When I let it go
Too many times I'm searching
For the things I think I need
When I try to look for more
I always seem to give You less of me
Lord, help me gain this wisdom
My foolish mind still lacks
'Til I find a way to let go
Of the part of me I'm holding back
