Don't you see the twinkle in my eye?  
I'm going to a place you'll never see  
God's got this plan for me so now I got to go  
There's no other place I'd rather be than right here in  
this  
New life that's been given just to me  
No more waiting or wanting for something that I'll  
never see

And I'm done with this minor love procedure  
I'm done with this Dr. Loveboyteaser  
I'm done with this I love you now not later and I'm done  
with  
This crazy lady fever

Tellin' you I'm here in my knees  
So ready to beg for a new disease  
I got a choice to make and I choose the money  
There's no other place I'd rather be than right here in  
this  
New life that's been given just to me  
Now it's what I am and what I've been and what  
I'm supposed to be

CHORUS 2x

You say you know my name but I hide my fame behind  
a  
Mask of mine now sweetie and if you're sad I came  
then  
Don't invite me in Cuz I'm through and tired of this this

CHORUS 2x
