If you had a life you wanted to keep  
Why would you stay with me  
And if you had a dime you wanted to spend then  
Please don't spend it on me  
And if you have feelings you want to share then  
Please don't share them with me  
And if you have a whim you want to go on  
Don't take that chance on me

Cuz when you really get right down to it I don't feel so  
good  
Give me just a little less time to think and maybe I  
would

I was walkin' in the hills in the hills of my mind  
To see what lies inside  
I am beside myself, my crops were ruined there was a  
drought  
Baby maybe if you open up your mind I will speed up  
the line  
Cuz honey when a boy gets vulnerable that's  
When you come inside

CHORUS

But that's the thing I completely deny  
Cuz all you're hearing is "hello, goodbye"  
And baby that's not reality  
I drive them crazy and won't tell them why why tell the  
truth  
When there's always a lie  
Cuz baby I want a guarantee

CHORUS 2x
