Wish I could explain what you have made  
Thoughts cannot help  
When I cannot trust myself

That dream of the gun  
Caught, I can't run  
Allow me to stand  
Until you take my hand

Along your way  
Abandon my faith  
In being alone always  
It's what you undo (You make your presence known)  
And why I'm unglued

CHORUS:

You got away, you got away with me  
I left myself open  
You got away, God's on his way to me  
Your wish has come true, I'm broken

So simple and strange  
How you rearranged  
Chills that I get

Your creeping into this

It's what you undo (You make your presence known)  
And why I'm unglued

CHORUS

Like a moment (Like a moment)  
I was stolen (I was stolen)

CHORUS

You got away (you got away)  
You got away  
You got away (you got away)  
God's on his way to me

You got away(you got away)  
You got away  
You got away(you got away)  
God's on his way to me

I have no more questions  
My simple mind is broken  
I have no more questions  
My simple mind is broken
