I need the power

the principle of all things, that rules us all the time
the hidden power my lust evokes, known in ancient
rhyme.

turning sexual energy into the power to kill
ritual pleasure sets it free and fullfills my will.

at the burial site on a moon-shrouded night
searching for a skull to complete my altar
the skull of the wise or of the high priests
the skull of a king to awake the inner beast

who is calling my name? I pray for power!

unholy sexuality brings me to a realm you'll never see
feel my wrath rise and it will set my lust free
shingontachikawa, the ancient cult - the dark belief, I
hold you high.

the skull as a symbol of the supreme evil, I hold you
high!
grant to me all the powers of darkness!

I need the power

seven years of the secret rite before the decollated
skull
all will be achieved tonight, sky is blackened, moon is
full,
the incense of hangonkou burnt more than a thousand
times
mandala on the skull starts to glow, it's time for you to
die.

the lord of evil, in shadow, appeared to me
gave me knowledge, and spoke to me of sanze,
crossed the abyss between past, present, future -
the forbidden wisdom, for now I possess jintsu.

I've got the power!
