It touches my window it runs down the wall, it's
raining in here
No people out there in this dead freightend night...
With nothing I'm left, despair is all I have
Still here you breathing by my side...

REF

And I can't complain, and nothing remains,
The same all day,
And now that you're gone, everything is wrong,
Please stay away,
This iccold rain, is gaining my pain,
So bad all day,
And times passing by, my life is a lie,
And there's no way.

I'm on a search for the reason why, all my time
But I've nowhere to go and nothing to hide...
With nothing I'm left, despair is all I have
Good luck to yourself and let me be...

REF

And I can't complain, and nothing remains,
The same all day,
And now that you're gone, everything is wrong,
Please stay away,
This iccold rain, is gaining my pain,
So bad all day,
And times passing by, my life is a lie,
And there's no way.

INSTR

And I ask myself, where is your god...
Still nobody's there but who would care?
I slept far too long, but I won't awake...
Just close my eyes and try not to dream...

REF

And I can't complain, and nothing remains,
The same all day,

And now that you're gone, everything is wrong,
Please stay away,
This icecold rain, is gaining my pain,
So bad all day,
And times passing by, my life is a lie,
And there's no way.
And there's no way...
