His liver damaged In the wreck  
The wind shields shattered all for an instant  
fleeting like cars from the street

Cat topped spinners across the highway  
And horses dieing, backseats crying, stumbling now,  
and no I cant talk now, but I understand

Anyway I look at him, my love you've got to come back  
soon, it's not fair.  
They choke your neck with a seatbelt, but they're meant  
to help

Breaking apart, misunderstand me  
Flashed this evening on the sky screen  
drive to Vegas and get yourself hitched

If I lived through my imperfections  
To a glass staircase  
and you're still angry,  
I don't want to be your friend anymore

We turned the wheel,  
That raised a wall and made this livid world turn red,  
But I'm not scared,  
Upon my bones from the face where I lie, Violetttt

Like rain returning  
(violet)Back to the earth,  
(violet)from a cloud falling down,  
(violet) makes you squint,  
(violet)as it hits your glasses lense.

I set a trap caught myself, so I surrendered, that's what  
I did, It wasn't there, nnnnoo it wasn't there, I looked I  
looked I looked everywhere,

the girl I lived for saturdays,  
she watched this brilliant star grow faint,  
but its not there, its not there.  
I make this light to give to you,

no matter what you do,  
I'll best open up these words to pour like rain, like  
peace upon your perfect head, it'll llluminate you, start  
to splutter I surrender,

She wore a charm, she wore a charm, a charm  
necklace, she tied it tight before that night, and .....  
and all the world has grown torn, it will be yours to stop
