Paint your face, Cover the black heads
Short top, bulging up your saggy tits
Cut your skirt just a little bit shorter,
Don't you wanna?
Toilet paper, going down your top
Do ever think about, bringing out some condoms
When you aim to go out and get fucked
Fucked all night long
Wearing No Un-Der-Wear
To slip it in and bang bang
And tattooed on her butt cheeks
Fuck Me.
Everybody here comes in your face
Your wanting everybody looking on in your direction
Have you looked at your skin complexion
How could I ever put my dick in you?
Bitchin erected muscle lickin
Think I'd rather be chokin my chicken
Do you ever think about who your fuckin,
Fucked all night long
I see
That you don't want to be safe
Protection gets in your way
I don't want this disease,
So...
Sucking off in the toilet
That door has, your name, written on it
You fuck there more every night now
Everything in town.
Semen, dripping from your eyelids
Running down your cheek your rancid.
Tattooed insert across your lips
I am disgusted.
Wearing No Un-Der-Wear
To slip it in and bang bang
And tattooed on her butt cheeks
FUCK ME.
Everybody here comes in your face
Your wanting everybody looking on in your direction
Have you looked at your skin complexion
How could I ever put my dick in you?

Bitchin erected muscle lickin
Think I'd rather be chokin my chicken
Do you ever think about who your fuckin,
Fucked all night long
I see
That you don't want to be safe
Protection gets in your way
I don't want this disease,
So...
So what do you do?
Go out and get fucked by ten different men
Then go and brag to your friends
Do you think that makes you a better person?
Please tell me what you were like as a virgin
Just an easy whore,
Open the door and come in,
Let the transmitting begin.
Do you ever think about the people your fucking
Bet you laugh at them thinking they got lucky
May aswell strap an advert to your back saying
Fuck Me, Free Disease
Stupefied Bitch
Open Legs
Insert Quick
Philosophy of a slut
You're such a Fool
You're such the
You're such a Fool
You're such the
You're such a Fool
You're such the
You're such a Fool
You're such the Fool
I see that you don't want to be safe
Your on a carrousel with no horses
You just slide up and down on the poles
You're such a Fool
You're such the
You're such a Fool
You're such the
You're such a Fool
You're such the
You're such a Fool
You're such the
You're such a Fool
You're such the Fool
