I'm gonna rhyme it like Ice, Vanilla, chocolate, and
strawberry

Flavor of the day, bring it up in the mains, come on

Drop some names, drop some names

Yeah, rough, have you had enough?

Like the New Kids On The Block, you know we're

Hangin' tough, hangin' tough

Chorus:

And do you know? And do you know? And do you
know?

The names you drop, the bombs you drop?

And do you know? And do you know? And do you
know?

What you identify, you celebritize.

And do you know? And do you know? And do you
know?

That they're gonna dive, hey I'm gonna dive

And do you know? And do you know? And do you
know?

What never died was the name of Christ

Oh yes, isn't that fresh? Like MC Hammer

Gonna rock the microphone with glamour, come on

Drop some names, drop some names

Chill, like Cypress Hill, you know

We ain't goin' out like that

No, we ain't goin' out like that

No, we ain't goin' out like that

[Repeat Chorus]

Babe, blame it on the rain, blame it on the tape

That you sang but you lost 'cause you couldn't claim

Drop some names, drop some names

Fresh, it's the bast

It's time to close this song real strong

Like we wuz Kriss Kross, come on

Drop some names, drop some names

Drop some names, drop some names

[Repeat Chorus]
