There's something missing  
Something's not quite right  
And I can feel it calling  
To me every night

A little voice inside  
Tells me someone is out there  
And I must never give up  
Searching everywhere!

(Someday) We are gonna be together  
(Someday) Life will be so much better  
(Someday) We will build a bond no one can break  
(Someday) No more dark clouds above  
(Someday) United in the light of love  
(Someday) The story can only end one way  
We'll be together someday

(Someday) We are gonna be together  
(Someday) Life will be so much better  
(Someday) We will build a bond no one can break  
(Someday) No more dark clouds above  
(Someday) United in the light of love  
(Someday) The story can only end one way  
We'll be together someday

Someday!  
We'll be together someday!
