Don't you dare look at me that way  
Those lips are distant and those eyes a memory  
Words are cold when conversation is one way, I'll chase  
you down if you run away

Say you'll be there  
Say this is true  
When the feeling is gone, and the moment is over  
Tell me there's more, that I've found in you  
When the feeling is gone, and the moment is over

Let me hold you for a while, I want to remember what it  
felt like to smile  
They say we're doing fine, but I know we're beggars in  
the longest of line

You entertain me  
With your wax wings  
Icarus did you know or did you lie  
Because we fell to earth swallowed by the sea

Say you'll be there  
Say this is true  
When the feeling is gone, and the moment is over  
Tell me there's more, that I've found in you  
When the feeling is gone, and the moment is over
