# "Friday Night Forever"

Visit "[Friday Night Forever](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I got a fever that is spreading around,  
everybody's caught in the place.  
and I could feel that it's about to go down  
Keeping my mind in a daze.  
I kick my shadows and I'm ready to go  
A feeling that won't come to an end  
and when the rhythm hits I get on the floor  
DJ won't you play me that song again ?  
Cause it's Friday night forever  
Baby we'll go on and on  
It's Friday night forever  
Move me on the break of dawn  
It's Friday night forever  
Baby we'll go on and on  
It's Friday night forever  
Move me on the break of dawn  
This is the night I feel it coming alive  
People living up deep inside  
Breaking free and getting so high  
Ready to jump on the ride  
So I just make the feeling last even more

Don't let nothing get in our way  
I get my body groovin' out on the floor  
Moving like tomorrow is far away  
Cause it's Friday night forever  
Baby we'll go on and on  
It's Friday night forever  
Move me on the break of dawn  
It's Friday night forever  
Baby we'll go on and on  
It's Friday night forever  
Move me on the break of dawn  
So let's move to the music  
It's an everlasting night  
So let's groove to the music  
It'll make you feel alright  
Cause it's Friday night forever  
Baby we'll go on and on  
It's Friday night forever  
Move me on the break of dawn
