How do I Begin to stop loving you
How do I go on by letting go
How do I pretend I know what to do
When deep inside I know that I don't

My heart is weak
Too tired to sleep
I'm incomplete
Like a day without sunshine
God only knows
This faded song
Must stand alone
Waiting on sunshine

How do I forget to remember you
Tell me how to mend a broken heart
How can I explain what I'm going through
It's like trying to find a shadow in the dark

My heart is weak
Too tired to sleep
I'm incomplete
Like a day without sunshine
God only knows
This faded song
Must stand alone
Waiting on sunshine, O yeah

Sunshine,Sunshine,..

My heart is weak
I just can't sleep
I'm in too deep
waiting on sunshine
And God only knows
This faded song
Must stand alone
Waiting on,waiting on,waiting on... sunshine,sunshine,..
