I miss our old story
And all the love we shared
But now I'm kinda wondering
It seems that you don't care

I'm always bragging back the time
And going to the place we met
I can't help but always cry
And hoping that you're there

Just in case you wanna get back with me
I promise you my baby
I'm not gonna ask who she is

Find me and I'll be there
Please hold my hand and touch me
Love me once again
Please call me
And I'll be there
No matter what might happen
I'm here to stay
I'm here to stay

I guess you're not coming back
There's nothing I can do
If loving you is not enough
Please tell me what to do

Tell me how I did you wrong
Or made you run away
I already gave you all my love
Just to make you stay

Just in case you wanna get back with me
I promise you my baby
I'm not gonna ask who she is

Find me and I'll be there
Please hold my hand and touch me
Love me once again
Please call me

And I'll be there
No matter what might happen
I'm here to stay
I'm here to stay

I miss our old story
And all the love we shared
If loving you is not enough
Please tell me what to do

Just in case you wanna get back with me
I promise you my baby
I'm not gonna ask who she is
I'm not gonna ask who she is

Find me and I'll be there
Please hold my hand and touch me
Love me once again
Please call me
And I'll be there
No matter what might happen
I'm here to stay
I'm here to stay
I'm here to stay
