After all these years  
You finally come home  
I've been waiting, fading  
What kind of long road  
Has made you take so long?

And makes you think  
You can mend what is wrong  
And you just walk in  
Crush me down

Don't cry over me  
It won't wash the pain and  
Don't lie, don't even try  
To give yourself away  
Waves of deception are  
Breaking my beliefs

You once said you would  
Never ever leave me

The show (?) of your smile  
Well I try to hide my scars  
Don't come near me, don't touch me  
Well, I already know  
Who you are

Don't cry over me  
It won't wash the pain and  
Don't lie, don't even try  
To give yourself away  
Waves of deception are  
Breaking my beliefs

Don't you leave  
Don't you ever leave  
Never leave!
