"Wings Of Love"

Visit "[Wings Of Love](#)" on MotoLyrics.com

Fly to me
fly to me on the wings of love
fly to me.
They will take you through the storm to the place where
you belong

You can find your way back home on the wings of love.

Can't you see
can't you see how the wings of love can set you free?
From secrets in your mind to a place that we can find

Come back to this heart of mine on the wings of love.

On the wings of love we can turn back again
To the place where love was born.
And the wings of love
they can carry us on
To a time when pain is gone.

Wait for me
wait for me
through the wings of love you will see
That I need your warmth tonight to feel you by my side

Together we can hide in the wings of love.

On the wings of love
We can turn back again...
Fly to me
Fly to me on the wings of love

Fly to me.
