Face the mirror, See the liar
Fucking traitor
Conversations in the darkness
Instigator
Trust and friendship
Slipped from your mind
And your conscience
Your betrayal earned my hatred
My response comes now
No loyalty, severed our ties for greed
Misplaced your dignity
Fuck your world, your dead to me
Severed ties (x4)

Wounds of your deceit
Will never heal cause they've
Cut too deep in my mind forever
I will now embrace this hate deep within
It now takes your place
Forever taste your sin, taste your sin

You've forgotten where you came from
Those who love you
Turned your back on years of friendship
That was once true
Selfish soul now lives inside you
Your the victim
So pathetic, so disgusting
Bow your head in shame
No loyalty, severed our ties for greed
Misplaced your dignity
Fuck your world, your dead to me

Wounds of your deceit
Will never heal cause they've
Cut too deep in my mind forever
I will now embrace this hate deep within
It now takes your place
Forever taste your sin
Severed ties (x4)
