Stop the rain in the night in my heart deep inside.

Cold as ice with a heart full of lies  
you're goin' your own way.  
I wait on the side in the heat of the night

it is hard to stay.  
Every day  
every night  
we're bound up in a hard fight.  
Joy and tears side by side  
that's our life.

Stop the rain in the night in my heart deep inside.  
Hold me  
I need you -  
Stop the rain in the night  
our love can't survive.  
It's now or never  
stop the rain in the night.

You and me - it's a tragedy with an open end.  
Take a chance for a new romance  
we're cryin' for love.  
Every day  
every night  
we're bound up in a hard fight.  
Joy and tears side by side  
that's our life  
Stop the rain in the night in my heart deep inside. . . .

Every day  
every night  
we're bound up in a hard fight.  
Joy and tears side by side  
that's our life.  
Stop the rain in the night in my heart deep inside.  
Hold me  
I need you - stop the rain in the night.  
Stop the rain in the night. (3x)
