Can't sleep at night, I toss and turn

Listenin' for the telephone

But when I get your call, I'm all choked up

Can't believe you called my home

And as a matter of fact, it blows my mind

You would even talk to me

Because a girl like you is like a dream come true

A real life fantasy

Don't matter what your friends try to tell you

We will even fall in love

And we will be together in any kind of weather

Just like that, just like that

Every little step I take you will be there

Every little step I make we'll be together

Every little step I take you will be there

Every little step I make we'll be together

Can't think too straight, I'm all confused

You must've put a thing on me

Because there are no words that can explain

I'm livin' in ecstasy

And you can rest easy I've got your back

You'll never have to feel no pain

Cause I dedicate my life to you

You'll never look for love again

Don't matter what your friends try to tell you

We will even fall in love

And we will be together in any kind of weather

Just like that, just like that

Every little step I take you will be there

Every little step I make we'll be together

Every little step I take you will be there

Every little step I make we'll be together

Every littleoww!

Every little step I (Every little step)

Every little

Every little step I take

Every little

Every little step I (Every little step)

Every little

We'll be together girl

Good lovin'

Good lovin'

Don't matter what your friends try to tell you

We will even fall in love

And we will be together in any kind of weather

Just like that, just like that

Every little step I take you will be there
Every little step I make we'll be together
Every little step I take you will be there
Every little step I make we'll be together
Every little step I take you will be there
Every little step I make we'll be together
Every little step I take you will be there
Every little step I make we'll be together
Every little
Every little step I (Every little step)
Every little
Every little step I take
Every little
Every little step I (Every little step)
Every little
We'll be together girl
