Your love flows over me  
Like blood on white roses  
Staining my heart and my soul  
Leaving me bleeding

Your tears rain down over me  
Like ice on black roses  
Drowning my hopes and my dreams  
Leaving me frozen

[Chorus]  
Take me away, make me your prey  
Cut off my breath, love me to death  
Close me inside your dying eyes  
Never let go, my tortured soul

Your arms crawl up on me  
Like ivy on roses  
Ripping my skin and my flesh  
Leaving me naked

[Chorus]  
Take my hand in to the night  
Kill my pain dress me in white  
Take my hand don't look behind  
Love will keep us safe and blind

[Chorus]
