Blood flows as the death seed grows  
Inside of me for eternity  
The fangs are sharper as the night is darker  
And my eyes, a glaze of ice

[Chorus - 2x]  
Save me, embrace me  
Your love will be death of angels for me

Poison and pain inside my veins  
A rush of blood, to drown my heart  
Children of the night, abandoners of light  
I'll take their name and suffer their pain

[Chorus - 2x]

Take me to the sea  
Leave me with the wind  
Close my eyes and let me sleep  
Where the sirens sing

[Chorus - 2x]
