You know it's funky funky funky "cus you heard it  
from here, say

A jam? oven rockin' underground airwaves  
Words amplify through your speakers and amps  
It's time to "get down, get down" with the Sound Pro  
camp

And clap your hands, to the rhythm we bring  
This is a joyous event so let your physical swing  
Break beats and backspins, an old pad and a pen  
These are broke mans poems, from begining\* to end  
The P-R-O with the soul, so let the record play  
Revival of an old school sound, for the president  
Always on point, no time for what the jalous say  
The essence of a real rap sound, check the resume  
And keep it movin', yo the vibes right here  
Three sixty degrees another world premiere  
So raise your glass, "cus we're the toast of the town  
Yo, Soul grab the mic "cus it's time to get down

[Dj scratches]

"So let's get down, get down"

"So get down, get down" [x4]

[Soulo]

Check it, I exist in the world of sound  
Hit record spots from town to town  
Dug deep in the crates where plates are found  
Schooled by the greats that shaped the round  
Phonograph, yo I break roots in half  
Straight architect gets down for the craft  
With the sound that hits the spot  
Makin' heads bob while your speakers get hot [echoes]  
I'm gonna add vocab into the mix  
Articulate my words so the concept sticks  
G-E-T-D-O-W-N  
Then ascend with the three Sound men  
Straight to the peak, where poets speak  
Jams are live and people vibe  
To the underground sound that's history bound  
Once again, we're gonna get on down

"So let's get down, get down"  
"So get down, get down" [x4]

This is remeniscin' of the days gone by  
When the brothers were fresh, and the ladies were fly  
Dancefloors were packed, and cold bottles were  
cracked  
Dj's dropped the needle for the crowd to react  
To a funky type of tempo that the wax rotate  
Fresh rhymes are served up on a 12 inch plate  
For the nation to see, the live science to be  
Definition of soul on the M-I-C  
Interlect is displayed, when the vocals are layed  
Timin' is a factor when dissisions are made  
So step inside the party all egoes aside  
And let the crowd rock steady to the sound we provide  
The three man band, Jay Skills and the Pro  
Last but not least is my man Soulo  
Creatin' the sound, that makes you gather around  
Once again, we gonna get on down

"Get down, get down"  
"So get down, get down"  
"So let's get down, get down"  
"So get down, get down" [x3]
