Lyrics Written by: Natalie Brown)

V1

Even though we said good-bye quite some time ago

There's a strand of love in my heart

That just can't let you go

It seems that even when I go to sleep

Images of you my mind still keeps

Chorus:

And I still see you in my dreams

No matter how I try it seems

That a deep part of me just can't forget

That a big part of me still has regrets

And I can't seem to let all the love I had for you go

Yes, I still see you in my dreams

V2

Sometimes I wake with your face in my mind

Somehow I thought that I'd left those memories behind

It seems that you have left my heart frustrated

With vivid memories your smile created
