In dreamland grandeur  
I held mesmerised peace  
Innocence breathed again  
A mind's escape  
Leave walls of tears behind  
Ethereal vision haunting still.....  
The solitude left me blind  
Beneath an open sky  
Sibilant cries of youth dying  
Enslave me with grief  
A moonlit era, oblivion's twilight kiss  
Wishes in lament  
Happiness in a broken vision  
Utopia still unborn.....  
Tormented echoes of a fallen Eden  
I longed for her beauty  
Yet from dust, she returned  
The dream, an enigma.... silent
