"Thin Air"

Love is free
In time, in peace
And now is here
This life, this dream ...

You know how it feels but... is it all in your mind?
When you know how it feels to be pushed and pulled
through your life
And sometimes it seems like there is life in your eyes
And all that I know is I love you

Yes I love you

And it feels like we're already flying
But the air is too thin and we're dying
The clouds all around take us higher
The world far below is on fire
I hold out my hand just to touch you
And all that I know is I love you
A vision a promise of heaven
A reason for being forever

You're just a whisper away

We've come too far to turn back
This is where we stand and face it
This is who we are, one step closer
Into thin air we will go there

We've come too far to turn back
This is where we stand and face it
I feel you breathe
You're just a whisper away

We've come too far to turn back
This is where we stand and face it
This is who we are one step close
Into thin air we will go there

We've come too far ...
This is where we stand ...
