C'mon let's ride, up to the country side
Roll down your windows, let the air inside
Let's ride, burn them tires out
Get off the road and find a different route.
Let's ride, play the music loud
Put on some some country, ain't no better sound
Let's ride, let's ride, let's ride!

I'm on my way, to pick you up
Don't ask questions, just get in my truck
Let's get away, from these city lights
Be lost together, in the middle of night

C'mon let's ride, up to the country side
Roll down your windows, let the air inside
Let's ride, burn them tires out
Get off the road and find a different route.
Let's ride, play the music loud
Put on some some country, ain't no better sound
Let's ride, let's ride, let's ride!

Tonight you're mine, but the night is ours
The sun will be up, in a couple of hours
Let your troubles go, set your mind free
And slide across the seat, a little closer to me

C'mon let's ride, up to the country side
Roll down your windows, let the air inside
Let's ride, burn them tires out
Get off the road and find a different route.
Let's ride, play the music loud
Put on some some country, ain't no better sound
Let's ride, let's ride, let's ride!

C'mon let's ride, up to the country side
Roll down your windows, let the air inside
Let's ride, burn them tires out
Get off the road and find a different route.
Let's ride, play the music loud
Put on some some country, ain't no better sound
Let's ride, let's ride, let's ride!
