My friends are new
But my love is old
I've kept thinking about you
I thought you'd perceived and so
So I have made a song
Listen to me
You will never know just with words
All that you don't know
I will tell you now

I lost my way
And now you've gone away
And now I'm a cold shade without you

Do you remember
When you told me you'd be a legist?
Would you've the courage to dissect my heart?
I think you did that right now
I can't stay without you
Wait for me, please
There's even a feeling
Don't condemn me in memories
Don't arrest me to your past

Do you remember
When you told me you'd be a legist?
Would you've the courage to dissect my heart?
I think you did that right now
I can't stay without you
Wait for me, please
There's even a feeling
Don't condemn me in memories
Don't arrest me to your past

Do you remember
When you told me you'd be a legist?
Would you've the courage to dissect my heart?
I think you did that right now
I can't stay without you
Wait for me, please
There's even a feeling

Don't condemn me in memories
Don't arrest me to your past

Do you remember
When you told me you'd be a legist?
Would you've the courage to dissect my heart?
I think you did that right now
I can't stay without you
Wait for me, please
There's even a feeling
Don't condemn me in memories
Don't arrest me to your past
