See the light, see the light  
See the light in the night  
And it shines, and it shines  
And it's shining so bright  
We're the ones, we're the ones  
We are riding the ship Orion

Any time any place  
We are winning the race  
Any time any place  
Never back to the base  
Orion, Orion  
We are riding the ship Orion  
Riding the ship Orion  
Riding the ship Orion

See the light, see the light  
See the light in the night  
And it shines, and it shines  
And it's shining so bright  
We're the ones, we're the ones  
We are riding the ship Orion  
See the light
