"True Love"

Visit "[True Love](#)" on MotoLyrics.com

Oh na na na,
Those who cry, those who you cry
Have you ever questioned love
Love for the special person in your heart
Uh, can you feel you're...
Goes every second, every moment, every hour away...
Never break your heart
Even... I respect this
This song goes on to my lady
She's so good to me
And there's no doubt of what I'm saying

Oh true love, true love will never die
You my lady in life...
And my love for you is pure and true
This more than a... I'm sure, yeah

Oh true love, true love will never die
Baby don't you cry
And my love for you is pure and true
Oh I love my lady
I love you baby
Yes I love you baby, yeah

Every time I see her face,
I feed myself with love like every day
You're always by my side
You stood by me through all of the difficult times
You're my everything, my love my heart
My soul mate from the start
What would I do without my baby
Yeah, this song goes out to my baby
She's so good to me
And there's no doubt of what I'm saying

Oh true love, true love will never die
You my lady in life...
And my love for you is pure and true
This more than a... I'm sure, yeah

Oh true love, true love will never die

Baby don't you cry
And my love for you is pure and true
Oh I love my lady
I love you baby
Yes I love you baby, yeah

I love you girl, I love you girl
I love you girl, I love you girl
Your kiss, your touch
I can never ever have too much
Your lips, your thighs
I see them when I close my eyes
Your kiss, your touch
I can never ever have too much
Your lips, your thighs
I see them when I close my eyes
When I close my eyes

Oh true love, true love will never die
You my lady in life...
And my love for you is pure and true
This more than a... I'm sure, yeah

Oh true love, true love will never die
Baby don't you cry
And my love for you is pure and true
Oh I love my lady
I love you baby
Yes I love you baby, yeah.
