I'm your prof professor of love!  
One is an Adam  
one is an Eve  
everything is relative.  
Flying in my cosmic ship to the planet Earth

Join me on my plastic trip through the Universe.  
Boys and girls around the world ready for a game

Who is who on this pearl  
do you guess my namez

Albert Einstein  
checkcheck the timetime

Albert Einstein  
lovelove is finefine.  
One is clever  
one naive  
everything is relative.

Coming from the Milky Way with my galactic crew

Mars and Venus fade to grey  
the energy is you.  
Timemachine and laserbeam  
the glance of Marco Polo

The school is ruled by Fronkensteen  
dance the tango solo.

Albert Einstein  
checkcheck the timetime

Albert Einstein  
lovelove is finefine.  
One is a butler  
one is a chief  
everything is relative.

Welcome to my laboratorium!  
Foraday will send a blitz to Jimmy Hendrix in Hotel Ritz

Kopernikus wears blue suede shoes

Isaak Newton sings the blues.  
Pythagoras and Sokrates rent a computer for  
Aristoteles

Doctor Jekyll and Mister Hyde on the couch of Sigmund  
Freud.

This is the formula  
mein Herr!  
Energy is mass multiplied by speed of light square

For this to analyse you gave me the Nobelprice.  
But I tell you this is not enough

I'm the profprof professor of love.

Albert Einstein

Checkcheck the timetime

Albert Einstein

Lovelove is finefine.  
One is sexy  
one sportive

Tout le monde est relative.

What did you say  
what did you say?  
Galileo Galilei.  
Galileo calls Captain Spock

und sie dreht sich doch.

One is a white boy  
one olive  
everything is - Einstein!
