Ooh yeah, ooh baby baby, yeah
And I want you for the rest of my life

Remembering the first day
You brought smiles to my face, ooh
With memories I can't erase
It's just so nice to know that you were made for me

It's so good to have you around
Someone who will never let me down
It's so good to have you around, oh yeah
And I want you for the rest of my life

You have never let me down, no
After four years I'm so proud, yes I am
I almost gave love away
But I must admit out of all you are the best

It's so good to have you around
Someone who will never let me down
It's so good to have you around
And I want you for the rest of my life

Change is overtime, how one day you may not be mine
But I'll cherish every moment you spend with me
I need you everyday, so don't you ever go away
You're all I need for me

Good to have you around
Who will never let me down
Good to have you around
And I want you for the rest of my life

Good to have you around
Who will never let me down
Good to have you around
And I want you for the rest of my life

Good to have you around
Who will never let me down
