"Bluebird"

Visit "[Bluebird](#)" on MotoLyrics.com

There's just one love in my life tonight
And it feels so right to love her
Soon I'll be gone with the morning light
As the bluebird flies away

Bluebird, don't leave her side
When I'm away, see that she stays
Bluebird, it's cold outside
Watch over her night and day

And if I could I would find a way
To make love stay around us
But when it comes to the light of day
My bluebird flies away

Bluebird, I hear your call
What can I say when I'm so far away
Bluebird, I hear you fall
Lost in the dust
As sunrise is just
Turning the night
Into day
