You
Running my life like you do
Making each day
A labor of love to be done
You
Always control your feelings
Bringing me down
To pick up the pieces I've won

Give me just a little bitty beat of your heart
Give me just a little bitty beat of your heart
Give me just a little bitty beat of your heart

I
Can't run around forever
Counting the times
We touch in the still of the night
I
Want us to stay together
But you must keep
The love that I give within sight

Give me just a little bitty beat of your heart
Give me just a little bitty beat of your heart
Give me just a little bitty beat of your heart
