I remember when you turned to say goodbye  
Feel the moment pass across my misty eyes  
I recall your whispered words  
But you'd never know my luck could turn around  
Fulfillment will be found

Looking at our life together or apart  
I can see the precious moments leave their mark  
If I say I've no regrets  
It's because I know the change that I went though  
Was never caused by you

As the years have gone  
Looking back I reminisce  
It doesn't seem so long  
Since I stood at this door  
Just like so many years before  
And I've never asked for more  
From your life

Happiness is here  
Better coming now to give some  
Meaning to the years  
I know at last we've found  
The world goes round for us  
And not against the grain  
And if there's anyone  
Who didn't mind the pain  
It's me
