When I'm away from you
It makes me search deep down inside
Every night is cast in shadow
But my thought can't hide
And baby if I could
I'd do everything that I have to do
By your side
But you and I know
That I've got to run with the tide

Sometimes I wonder how you take
Those bad things that I say
Somebody must be high above me
Watching games I play
Believe me when I say
I don't want nobody else
Sharing a home with me
I just want to say
That I love you and I will
I'll love you eternally

Listen...

Ooh
Love you eternally
Ooh
Love you eternally
Ahh
Love you eternally
Ahh
Love you eternally...
