"Show Us the Sun"

Visit "[Show Us the Sun](#)" on MotoLyrics.com

Show us the sun
And we'll sing you the music
You wanna hear down on the beach
Just keep the feeling
We shared all last summer
Remember to stay within reach

Last September feels so far away
As we all waved goodbye for a year
Yesterday brought back those feelings again
The love, the laughter, the tears

This year the summer
Is better than ever
To share it with someone like you
This year the summer
Is lasting forever
The feeling will stay timeless too

Don't stay goodbye when September comes round
Let's stay closer together this time
Keep shining the sun
On the love we have found
The dream is still yours and mine
