Now that I've found you
Now that I've got you, on my mind
Taking it easy
Taking by the way....
Taking the way it goes by

I'm just a traveler
I'm just lonely road traveller
You needed some rest, babe
I needed someone like you,
Someone like you babe
I'm tired and blue, hey

Now that I'm lonely,
Now that I'm only waiting for
someone like you babe.
Don't ask me who babe, cause

I'll make it easy,
I'll make it best enough babe
I'll never bother you
I'll never leave you hanging

Someone like you babe
Tired and blue, hey
